

I don't think it is a good idea to allow LPFM stations to take priority over current FM translator service. It will result in a lose of radio stations that are of value to many people. First, of all my family listens to and finacially supports K-LOVE. K-Love serves me as a resident of our local community and my family as well as other members of our community. My family has invested in this station by sending a monthly contruibution in order to insure this station will be available for our community. If the LPFM is put into affect we will no longer have this option and the commuinty will suffer as a result. I believe in the survice that is provided by K-LOVE and I think it is in the public interest to keep it available for the listeners. K-LOVE has touched my life. It is always there to provide positive and encouraging music and support. Please reconcider this decision and keep K-LOVE on the air!
